SCHOOL-TO-WORK VOCATIONAL PROGRAM

Dear Sir or Madam:

I am writing to tell you about a wonderful program at South Side High School that might be of benefit to your business/place of employment. The School-to-Work Vocational Program has been an active part of the community and work force since its inception in 1994. Our program serves students ages 16-21 who are looking to develop and refine skills that will help them eventually gain long-term meaningful employment. Our goal is to help our students learn vocational skills while providing your place of business with a productive worker.

Students bring a positive attitude to the job site that many business owners say is contagious. Employers often report a stronger sense of cohesiveness and camaraderie that they attribute to our student's being placed at their business.

Our students are directly supervised by a job coach that is provided by our school. Students can work 1-5 days per week and are available from 12:00 pm - 2:00 pm.

Please take a moment to review the enclosed literature about our program. If you or someone you know would like to participate in our program as a work site sponsor, or if you would like more information, please contact me at your earliest convenience.

I look forward to hearing from you.

Sincerely,

Tara J. Guimaraes
Vocational Coordinator
